

Fact sheet

Easy Folk Art: £65.00 (including a £25 beginner's kit!)

Have you ever wanted to hand decorate or embellish furniture? Or maybe you would like to create pretty cards and gift tags? We would love to introduce you to folk art and see you embark on a journey that will see you creating all manner of decorations. Think you can't paint? Think again! We can promise that you will be stunned by your results. Everyone can create fresh and pretty designs that can be incorporated around the home or used to create unique gifts for friends.

On this workshop not only do you learn a new skill but you also leave with all the materials (in your 'You can Folk it' kit) to continue your art at home, together with a detailed DVD to remind you of all the finer points – a package that retails at £25.00.

Class sizes are very small to ensure you full tuition and so that you get the most possible from the day. Lashings of tea/coffee, biscuits, cakes and inspiration are included in the price too.

Important point: The price of this workshop includes a beginners kit to use on the day itself, and to help familiarise yourself with the paint and craft mediums. To take part in this workshop you will need this kit, and that is why it has been incorporated in the price. If you already have a 'You can Folk it' starter kit you are welcome to bring that along and the cost of the kit will be reduced from the overall cost of the course.

NOTE: To join us on this workshop you will need to book a place in advance. To enquire about a place on this workshop please send an email to karen.mannering@btinternet.com with **Folk Art** in the subject line.
